TRAVEL INSURANCE

What an amazing year of claims !

Iceland volcano, Mumbai terror attack, over 29 Low Cost Carrier Airlines liquidate, XL Travel Group in UK goes broke etc.

What an amazing year of claims !

FFC FACTS ABOUT CLAIMS IN 2010 : FFC are so happy that all of our Travelers had no major problems in their claims against these tragedies and hassles, as the COVERMORE Policy that any visitor to our site and also the discounted QBE Policy were protected and claims paid out. It is imperative to note that NOT ALL Insurance policies are the same—even if underwritten by the same underwriter ! Both policies that we issue for travelers protect you for these circumstances PLUS each also protects any lost or un-availed Frequent Flyer air tickets with a monetary compensation value-based on Policy conditions and formula. This is unique and rare and is an added advantage of you having FFC issue casual visitors with the COVERMORE Policy or FFC Members with the discounted (15%) QBE Policy.

PRE-EXISTING ILLNESS protection is getting harder to cover, so please have us assist you in obtaining fast and best coverage BEFORE You commit too much money on Travel.

FREE CAR RENTAL EXCESS payouts is covered up to \$4,000 AUD on both Policies we issue. A huge bonus.

TRAVEL INSURANCE COMPARED: Through accredited Travel Agents, we have copies of Travel insurance comparisons that we can email to you or discuss. Contact ffc@frequentflyerclub.com.au for this info.

NOT SO FREE: Be very wary of the so-called Free Travel insurances offered by Banks and linked Credit cards. Free Insurance can easily give you a false sense of security and it will hit you so hard if you discover that evacuation, payment of claims or assistance is not there for you. Horror stories are daily in the Media. Even the scary \$200 excess per claim can cost you more than one of our recommended policies.

International Airfares At All Time Low

April 2010

There has never been a better time to embark on international air travel as airfares hit an all time low. In the past few months, increased competition for customers has forced airlines to slash fares by up to 65 per cent.

Return fares from Australia to Europe have dipped below \$1450, while a return ticket from Sydney to Los Angeles is less than \$1000.

However, consumers have been advised to book now or miss out later. Some of the current airfare prices are believed to be at below-cost price and accordingly the airlines cannot keep up the fare war for long.

TRAVEL HINTS & WISDOM

Some of our members are taking the opportunity to book ahead and save thousands whilst others believe the fares have not yet hit rock bottom and are biding their time accordingly. One member suggested that the recent outbreak of swine flu may further reduce international travel and prices may then drop further.

OVERSEAS CUSTOMS : *DO NOT joke or play word games with Customs and Immigration officials. Australians tend to be jovial and joking, BUT overseas authorities often do not understand Australian humor. Be serious and tactful.*

Keep humor at home or with travelling companions. Do not mix business with humour if entering a foreign country.

NEW ORLEANS SCAM : Locals say to you "Hey, I bet I can tell you where you bought your shoes from...". You look down and they or their nearby partner hit you or take your shopping bag/wallet.

Do not look down and be aware on all sides. A very fast take that has locals running down alleys so fast that no Jazz music can ever play with.

FOREIGN AFFAIRS WARNINGS : *Always get us or your Airline to debrief you on Foreign Affairs updates.*

Strike action, custom details, public holidays, violence, wars and the like might ruin your holiday. Axis Travel clients are always made aware of any such happenings.

Join or rejoin with FFC again and entice your partners or business partners to also join FFC as a Member then partake of our special discounted rate thereafter.
